JOnAS Roadmap

JOnAS 4.8 stable version is ready since December 2006. This is a very professional version with high level clustering and management features. This is the first "Enterprise Edition", meaning for Bull support customers that a 3 years support is available on this version.

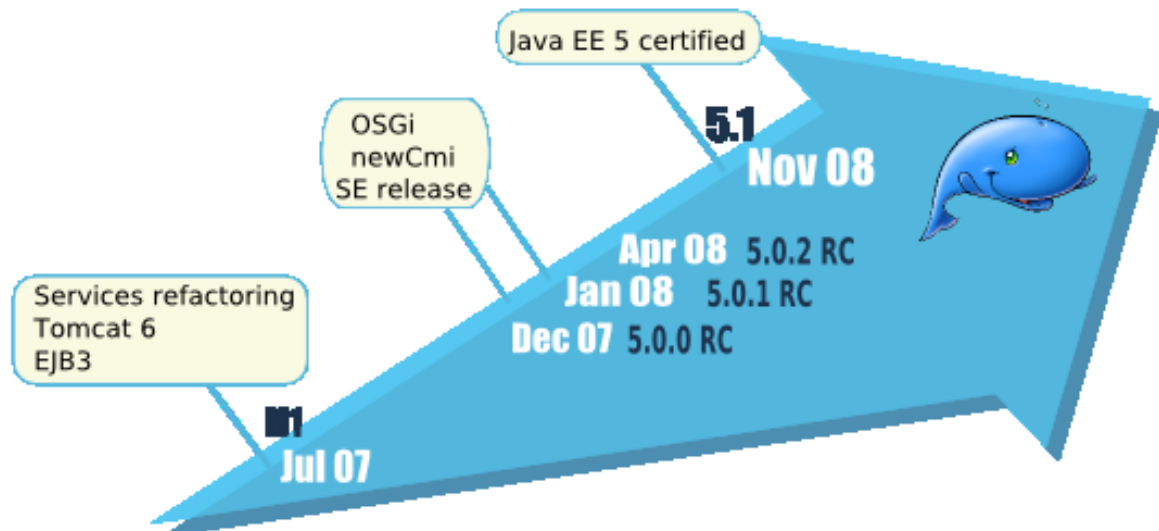

Early 2008, a JOnAS 4.9 version will bring some new features.

JOnAS 5 serie will bring two major enhancements, first a new services architecture, then the compliance to Java EE 5.

The main steps are scheduled as follow:

- Dec. 2007, **JOnAS 5.0**
 - a version re-engineered on OSGi
 - enhancements mainly regarding cluster features
- Nov 2008, **JOnAS 5.1**
 - Java EE 5 compliant version
